

Развитие возможностей NS2

under construction

Что есть NS2

- TODO

Ближайшие задачи

- 802.16 frame structure visualization

In a few words, the task is to visualize the 802.16 frame structure with the W3C SVG format. The input is allocation of data bursts inside the 802.16 frame, the output is generated SVG XML file.

- NS-3 MAC and PHY

This task required a more independent and analytical work. We need an analysis of NS-3 MAC and PHY, preferably a comparison to what we have now in NS-2.
